

## SWASH ELECTRONIC BIDET WATER FILTER SWF44

### KEY FEATURES

- Ideal for your Swash advanced bidet toilet seat
- Granular carbon removes heavy sediment, particulates, and chlorine
- Ion Exchange prevents calcification build-up
- Purifies your water source
- Effective up to six months
- Also compatible with most major brands of electronic bidet seats

### SPECIFICATIONS

Dimensions	2 1/8" Diameter x 5 1/4" L
In / Outlet Valve Size	1/2" Diameter
Housing Material	Polypropylene
Filtration Component	Carbon (granular type) and ion exchange

### INSTALLATION

1. Shut the toilet water supply valve off
2. Disconnect the Bidet Hose from the T-Valve
3. Connect the female end of the Swash Filter to the open T-Valve connection
4. Connect the Bidet Hose to the male end of the Swash Filter
5. Turn the toilet water supply valve on

**⚠ WARNING ⚠**

**OPERATING PRESSURE: 10psi – 100psi maximum**

Do NOT use with pressures over 100psi. If water pressure is over 70psi, a pressure reducing valve is suggested for stable performance.  
Do NOT use with hot water lines – for cold water use only. Filter lifespan of up to 6 months depending on usage, please replace regularly.
